

## **CLIENT ASSISTANCE:**

Leading the way in Client assistance, Cram has a 24\*7 helpline where our clients regardless of the time or severity of the issue can call in to get their matter resolved. CRAM ensures that its clients remain satisfied even after the project has been delivered which has helped escalate our reputation amongst top IT & software service provider in India.

CRAM's Business assistance initiative helps foster the growth of its clients business by providing realistic solutions and setting realistic deadlines to meet the demands of its customers such as remodeling of their current systems, reengineering their existing website, their service software's etc. Since its inception in 2006, CRAM has been providing tailor made services and assistance and consistent representation of their issues while working on regeneration of their business as well. Let us help you serving better , if any issue is there.
